PROFILE

Motivated Salesforce Developer with 3+ years of hands-on experience designing scalable solutions on the Salesforce platform. Proven expertise in automating workflows, optimizing user experiences, and delivering custom Sales Cloud applications. Adept at translating business requirements into technical solutions with Apex, LWC, and Flows. Seeking new challenges and opportunities for growth in a dynamic environment.

TECHNICAL SKILLS

- **Salesforce Administration** - Data Model, Security Model (Profiles, Roles, Sharing Rules, OWD, Permission Sets), Page Layouts, Data Validation, Data Loader, Salesforce Lightning, App Builder, Email Templates & Alerts, Flows, Reports & Dashboards

- **Salesforce Development** - Apex (Classes, Wrapper classes, Error and Exception Handling, Test Classes, Triggers, Trigger Handlers, Controllers), Salesforce Object Query Language (SOQL), Salesforce Object Search Language (SOSL), DML Operations, Lightning Web Components (LWC)

- **Tools:** Git, GitHub, VS Code, Salesforce CLI

- **Other Technical Skills -** Java, JavaScript, React, HTML, CSS, Bootstrap v5, Object-Oriented Programming (OOP)

PROJECTS

EdTech Application - Using Admin and Development Concepts | LINK | DOC   *Nov 2024 - Dec 2024*
Contributed to the development and optimization of solutions for iLearnings, an educational platform dedicated to enhancing learning experiences. Focused on streamlining business processes, ensuring data integrity, and implementing workflow automation. Successfully delivered customized solutions that improved operational efficiency and user satisfaction.
- Increased operational efficiency by 25% through the design and implementation of automated workflows using Flow and Process Builder.
- Managed data imports with 100% accuracy and maintained data integrity across the Salesforce platform.
- Developed and deployed Apex triggers to automate complex business logic, reducing manual workload by 30%.
- Designed advanced dashboards and reports to provide actionable insights to stakeholders, improving decision-making processes.
- Integrated third-party tools to enhance Salesforce functionality, ensuring seamless data flow and user experience.

Rent A Car Application - Using LWC, SLDS, Apex, and SOQL | LINK   *July 2024 - Aug 2024*
Developed a Salesforce-based car rental application enabling users to search, view car details, and share rental experiences.
- Utilized LWC for dynamic front-end interactivity, Apex for backend logic, and SOQL for efficient database queries.
- Integrated SLDS for responsive UI components and LDS for seamless record management.
- Implemented real-time component communication using custom events, public properties, and the Pub/Sub module for cross-component updates.
- Enabled users to input or create custom car types, view results in a responsive grid, and view or add reviews for selected car.

Budget Buddy - Using MERN, Chart.js, and Google Gemini API | LINK | DEMO   *Nov 2023 - Feb 2024*
Developed BudgetBuddy, a MERN-based budgeting web app integrated with AI for personal finance management.
- Utilized React.js for the front end, Node.js and Express.js for the back end, and MongoDB for data storage.
- Integrated Chart.js for dynamic visualizations and the Google Gemini AI API for personalized financial recommendations.

EXPERIENCE

Cendance Systems Inc   *Jan 2024 - Present*
Salesforce AI Developer Intern | LINK

ILearnings Career & Consulting Pvt Ltd   *Oct 2024 - Dec 2024*
Salesforce Developer Intern | LINK
- Developed a comprehensive Salesforce admin and development application for an EdTech company during the internship.
- Automated 10+ manual processes using Flows and Apex Triggers, reducing administrative workload by 30%.
- Migrated 500+ records with Data Loader, ensuring 100% data integrity for an EdTech platform.
- Built 10+ interactive reports and dashboards for stakeholder decision-making, improving reporting efficiency.

Neevas   *Oct 2024 - Nov 2024*
Salesforce Developer Intern | LINK
- Earned 20+ Trailhead badges (50,000+ points) in Admin and Development modules.
- Developed a Field Sales App for mobile sales reps ,and Local Park Visit Tracker App.
